USA 留学中の平松さんからの便り

By International Exchange Committee

By the way, it's almost Summer and school will be out soon, We will finish school before June 1. Then we'll have 3-month vacation!!! Seniors have a party called a prom. It's a graduation party. My friend got a big party car for me, but for some reason it didn't come. I had so much fun, though! I went to dinner with my friend before the prom and we danced at the prom party. I wish we had a prom in Japan, too. Anyway, you guys still have 10 months at school, and I'll be there soon! See you soon!

Let's enjoy the life at Kisogawa H.S .together!

Hey guys! How are you doing! Here, in the USA, it is getting warmer. All the trees and grasses are turning green.

So, I know Japan has a lot of pollen and some of you guys might be having trouble with it. Surprisingly, the United States of America has a lot of pollen, too! One day, I felt kind of sick and I thought it was just a cold. However, my mom said it could be allergies. I was so surprised when I knew the cause was pollen. Apparently, Texas is known for having a lot of pollen from all the trees and grasses. I couldn't escape from this trouble. But It's alright, I got this.
