

## A School Festival in Kisogawa!

みんなで力を合わせ、力を尽くしてがんばった学校祭！

**By International Exchange Committee**

A cultural festival was held on the 10th of September. All the classes held their unique attractions, and imitation stalls or restaurants. Almost all the classrooms were decorated nicely. They looked great!

I ate ramen and frappe at some of them. They were delicious! Our class held “Perfect for Instagram (Insutabae)“. We made ‘the moon’ very hard though that was difficult and tough. Our attractions were successful.

We enjoyed ourselves very much. The school festival was a good memory for us. I won’t forget this school festival!

A sport festival was held on the 11th. We had an obstacle race, a rental race, a Mukade relay, a 600-meter relay, a Swedish relay, and a tug of war. The T-shirts designed by the members of each class increased our solidarity. The theme of this year’s school festival was “Mocco’s Kitchen”. The festival became hot and exciting. The captain of each block led the members of the block. Due to the extremely hot weather and poor physical conditions, the dance and the relay in the afternoon part were postponed.

On the 26th, we had the latter half of the sport festival. The dance performances done by each block were moving and wonderful!

We were able to enjoy the two-day sport festival to our heart’s content!
