

Hello Kisogawa!

ドイツからの留学生によるプレゼン: Wonderful Germany By International Exchange Committee

On November 20th, the exchange students from Germany told us about their country.

First, Anuk made a presentation. It takes about eleven hours to go from Japan to Germany. Its capital is Berlin. It is surrounded by nine countries. There are many states such as Hamburg, Bremen and Bayern.

He showed us many photos of big cities, beautiful castles and cathedrals. They were very attractive.

He also showed the photo of his school. It is a beautiful and traditional building. There he studies a lot of subjects.

There are many World Heritages in Germany. Germany has a lot of attractions to see. I want to visit the country someday. Everyone should go there.

By Endo

Merle told us about the events and the festivals in Germany. She introduced the events which are familiar to us, such as Halloween and Christmas, and which are unfamiliar to us, such as Easter and Oktoberfest. All the photos were very interesting and impressive.

She told us about the famous stories, Lorelei's legend and Hameln's whistling man. Both of them originated in Germany. The stories seemed a little scary.

Grimm's Fairy Tales are also famous. The authors are Germans. Their works were filmed by Disney.

Furthermore, we learned about many great musicians from Germany. I enjoyed a lot of things about Germany. By Idota

Let's enjoy the life at Kisogawa H.S .together!
