

A school trip in Shiga!**2年生がスキー修学旅行に行ってきました！****By International Exchange Committee**

We went skiing in the Shiga Highlands as a school trip from January 21st to 24th. We enjoyed skiing there very much.

At first, beginners were very worried about whether we could learn to ski well. On the first day, we practiced walking on the skis. It was more difficult than I had expected.

On the second day, we started skiing. It was fun, but we couldn't ski easily. On the third day, we went to a little higher place. The scenery was wonderful. We saw beautiful mountains covered with snow. We were moved to see them.

On the fourth day, all the students became quite better at skiing. We were surprised that our skill had improved in only four days.

We had a very good time there. Someday, I'd like to go skiing with my friends again!

I'm a student in the first year. I heard from one of my seniors in the second year about a skiing school trip in Nagano.

They said that they enjoyed skiing very much. They improved their skills. I want to go on a school trip and ski soon because I've never experienced skiing.

My seniors told me about their school trip. At night, after skiing, they made "Akebi crafts." They made a basket by weaving the vine of Akebi. It was a great fun, and a good experience for them. They also had delicious meals there.

Listening to them, I'm looking forward to my school trip next year.
