

We Went on a School Trip!

素晴らしい陽気のもと全学年が遠足に出かけました。

Sometimes it's important to be a kid again and just have fun.....

We, first graders, went on a school trip to "Morikoro Park" in Aichi prefecture. The weather was so nice and there were lots of greens and fields. My friends and I lay on the ground enjoying the feeling of the fresh grass and the warm sunshine. We had lunch on the grass and sketched a picture of trees and flowers. I really enjoyed the sweet smells of the flowers and the colorful autumn leaves of the trees, I was so glad that we could come here. The park is so big that there are several areas we didn't have a chance to visit, so I would like to come here again sometime soon and take a visit to those places.

(1st grade H.S girl)

What is it like to live in a different era or a different country?

The second graders and the third graders went on a trip to open-air theme parks.

We went to "Little World". It's an open-air theme park where you can walk around and learn the culture and the tradition of different countries. I enjoyed learning new things and took many pictures with my friends and I bought little gifts for my family. But what I enjoyed most was eating! I tried lots of foreign food, Italian, Korean, French and so on. I spent wonderful time with my friends!

(2nd grade H.S girl)

We went on a trip to "Meiji Mura" and learned a lot about the era. Meiji was the time when Japan began opening its doors to the world and first started to accept Western culture. I felt as if I traveled back in time and got to experience the modernization of Japan. And I also had a great fun with my friends and was able to deepen the friendship even more than before. It became one of the best memories in my school days.

(3rd grade H.S girl)

Stay tuned for the next issue.
