

# First Trial at DIADORA

市総合体育館で初めて体育祭が行われました

Under the new style and at the great venue, the sports festival was held safely and on a high note.

## School Festival, Full of "Firsts"

Well, this year, there was no cultural festival, which was the first time since "Mokkosai" started. The sports festival, however, was held in DIADORA Arena in Ichinomiya City, which was also a first and turned out to be so comfortable and great. To avoid spreading the COVID-19, we wore masks during the game and rubbed our hands with disinfectant before every game and play. Even under those circumstances, many students cheered their teammates in a big voice. They all looked so excited. I think we all tried so hard. And finally, Block B, our team won!! I was very glad. Next year, I'll be a senior, so I'll have to lead my juniors. I'll definitely do my best and I hope to win again. **(2nd grade H.S boy)**

## A Great Sense of Unity and Accomplishment

The school festival already started from preparation time. I practiced dancing outside with team members. And some other members made symbol fans, symbol dolls and symbol towers. Each of the categories may have a chance to win an award. Especially in dancing presentation, which I joined, as students from all the grades joining and cooperating together, I felt a great sense of unity and an accomplishment. There was only a sports festival this year, but I still had a wonderful and fulfilling time! **(3rd grade H.S girl)**

I had a wonderful time at sports festival. I joined jump rope. Since we never practiced jump rope before, I felt so nervous, but I think everyone felt the same way and we all did our best. I also joined dance performance. Remembering that we had practiced so hard for this day, I was so glad when our team name was announced as the first prize winner. And I was very impressed with the performances of other teams, too. I'm looking forward to the sports festival next year. **(2nd grade H.S girl)**
