

## 2nd graders visited Hyogo, Osaka and Kyoto on their school trip

第2学年が修学旅行で3都市を訪れ、それぞれに思い出を刻みました。

We went on a school trip to Hyogo, Osaka and Kyoto from October 13th to October 15th. On the first day, we visited Awaji Island. At night, we enjoyed dinner cruise in Kobe. On the second day, we went to USJ, which I enjoyed the most among three days. On the 3rd day, we visited Kyoto, where I took a lot of pictures. I'm so glad that I could make a lot of good memories on this school trip.

(2nd grade H.S girl)

I learned a lot during this school trip. On the first day, I learned about the Great Hanshin Awaji Earthquake. In the Memorial Center, I actually experienced the shake on the same seismic scale as that day. It was much bigger than I had imagined. Nankai Trough Earthquake is said to be coming anytime soon, so I want to prepare for it.

**Maybe, you can't keep the most precious memories by smartphone, but you can always remember them in your heart.**

During the three-day school trip, I enjoyed the 2nd day the most. We visited USJ in Osaka. I spent lots of time with my classmates trying many kinds of attractions, eating special food that are only sold in USJ and buying souvenirs for my family. I talked a lot with them and got to see a new side of them. Now that we are back to school and leading a usual life, I don't remember the details of the day anymore, but I really want to go back to Osaka again. These three days are the best memory in this year!
