NEW PLACES, NEW DISCOVERIES!

We went to Meiji Village. It was raining in the morning, but when we got off the bus, it cleared up. We enjoyed the shining sun, red-colored autumn leaves and wide blue sky. There are many Meiji era style buildings and also there is an old train. Lots of students enjoyed mystery-solving maze games and I enjoyed food, such as sweet potato crackers, green tea soft ice cream and udon noodles. It was so much fun!

We went to Nagashima Spa Land on November 12th. I enjoyed lots of attractions. Steel Dragon 2000 is a high and long roller coaster. I had waited for about 90 minutes before my turn came and it was worth waiting. The view from the top was very beautiful and so thrilling. Because of the COVID-19 we didn't go on a school trip or rarely went to any places, so I'm very glad that I could finally made a good memory.
